

Woodpeckers[®] OneTIME Tool[®]

No94 DUAL BEAM SCRIBE

O W N E R ' S M A N U A L

Woodpeckers No94 Dual Beam Scribe combines two marking gauges and a square into one compact tool. The original Stanley No. 94 "Butt Gauge" was used by trim carpenters to lay out hinge mortises for decades. The opposite page is an adaptation of one of the early instruction sheets that accompanied the original. Whether you're hanging doors by hand or any other job that requires multiple marking gauges, we think you'll enjoy this unique, historic tool.
